## GROUP

### AP Young Environmentalist

#### AP Rutland Rookie

The Rutland Aqua Park is located in a beautiful, countryside nature reserve.

Can you answer these questions?

You can use the Anglian Water's web page to assist with research.

<https://anglianwaterparks.co.uk/rutland-water-park/nature-wildlife>

and Google searches to identify the answers to the following questions:

- 1) Is it a natural lake or a manmade reservoir?
  - 2) What species of bird, animals or fish are present in the surrounding environment?
  - 3) What is Rutland Water's most famous bird conservation project?
  - 4) Is the area zoned to allow different activities to take place on or around the water?
- What can the Aqua Park staff and visitors do to manage their effect on the environment?

#### AP Rutland Hero

Before your visit, use the Anglian Water website to understand how people can use the nature reserve alongside each other and safely.

<https://anglianwaterparks.co.uk/rutland-water-park/visitor-information>

- Research water bathing quality standards. What should you look for when you get into the water?

# AQUA PARK

## GROUP

### Aqua Park Cardiff

If you are bringing a group of pupils down to the barrage you can find an education pack available at:

<https://cardiffharbour.com/education/>

This supports both key stage 2 and 3.

### AP Cardiff Rookie

The environment that we operate in on the barrage is man-made. Before your visit the Aqua Park look at the resources on this website:

<https://cardiffharbour.com/>

This can be used to find out about the history of the project and regeneration in the area.

### AP Cardiff Hero

Learn about environmental monitoring on the Bay through the Harbour Authority website:

<https://cardiffharbour.com/>
